EDUCATION

B.Tech in Computer Science & Business System

Ramrao Adik Institute of Technology

2024 - 2028

CGPA : 10.0 / 10.0

EDUCATION

B.Tech in Computer Science & Business System (CSBS)

Ramrao Adik Institute of Technology , Nerul , Navi Mumbai

CGPA : 10.0 / 10.0

SKILLS

Programming Languages

- C
- Java
- Python
- SQL

Web Technologies

- HTML (Basic)
- CSS (Basic)
- JS (Basic)

Core Concepts

- Data Analysis
- Data Visualization
- Machine Learning
- DSA
- OOP
- DBMS

TOOLS & TECHNOLOGIES

- VS Code
- Jupyter Notebook
- IntelliJ Idea
- Canva
- Power BI
- My SQL

PROJECT

AQI Prediction System (Team Project)

- Developed an AQI prediction system using Python and machine learning models on air quality datasets.
- Implemented Random Forest Regression and Linear Regression, achieving an R^2 score of 0.92 by Random Forest Regression.
- Designed a user-friendly dashboard with AQI insights, health advisories, and interactive quizzes to improve public awareness.

LEADERSHIP & ACTIVITIES

- **Member of ISA Community**, contributing to rocket modeling activities.
- Participated in the **Vrukshak Tree Plantation Program**.
- Presented project solutions during **SIH 2025 internal evaluations**.
- Presented academic projects, magazine reports, and NGO-report presentation as part of coursework

ACHIEVEMENTS

- Achieved **10.0 CGPA** in the First Year of B.Tech (CSBS).
- Shortlisted in the Internal Round of **Smart India Hackathon (SIH) 2025**.
